Contents of Volume 224

Vol. 224 Nos. 1–2 OCTOBER 12 1999

Research papers

Constraining permeabilities in a large-scale groundwater system through model calibration
D.U. Ophori 1
National threshold runoff estimation utilizing GIS in support of operational flash flood warning systems
T.M. Carpenter, J.A. Sperfslage, K.P. Georgakakos, T. Sweeney and D.L. Fread 21
Comparison of the stable-isotopic composition of soil water collected from suction lysimeters, wick samplers, and cores in a sandy unsaturated zone
M.K. Landon, G.N. Delin, S.C. Komor and C.P. Regan 45
Evaluation of flowmeter-head loss effects in the flowmeter test
N.C. Ruud, Z.J. Kabala and F.J. Molz 55
Effects of a rainstorm high in sea-salts on labile inorganic aluminium in drainage from the acidified catchments of Lake Terjevann, southernmost Norway
D.O. Andersen and H.M. Seip 64

Vol. 224 Nos. 3–4 NOVEMBER 8 1999

Research papers

A GIS-linked model for the assessment of nitrate contamination in groundwater
F. Lasserre, M. Razack and O. Banton 81
Production of dissolved organic carbon in forested catchments
D. Hongve 91
Application of fuzzy rule-based modeling technique to regional drought
R. Pongracz, I. Bogardi and L. Duckstein 100
Critical period of reservoir systems for planning purposes
M. Montaseri and A.J. Adeloye 115
Groundwater recharge modelling using the Monte Carlo technique, Manawatu region, New Zealand
G. Bekesi and J. McConchie 137
Modification of the probability-distributed interacting storage capacity model
D.A. Senbeta, A.Y. Shamseldin and K.M. O'Connor 149
A time-series analysis of the changing seasonality of precipitation in the British Isles and neighbouring areas
R. Thompson 169
